

## COVID-19 Advisory for 2024 Tour Season

COVID-19 safety remains a priority for St. Paul Island Tour and the St. Paul Island community alike. We are committed to doing our best to mitigate the risk to our customers, friends, families, and neighbors. All guests who hold a confirmed reservation with the Tour agree to fully comply with all City of St. Paul Emergency Ordinances, as well as state and federal requirements should they exist. These ordinances are subject to change. During the 2023 Tour season, there were no travel restrictions in effect. However, as recently as June 2022 the island did institute lockdown restrictions. The CDC, the City of St. Paul, and St. Paul Island Tour still highly recommend full COVID-19 vaccinations and pre-travel testing.

We are grateful for your cooperation in keeping everyone safe. Should new measures be enacted, we will share them here. Please do not hesitate to contact St. Paul Island Tour if you have any questions at: [tourdesk@stpaulislandtour.com](mailto:tourdesk@stpaulislandtour.com)

Effective: November 1, 2023  
Anchorage, Alaska
